

## MANDATORY DRUG LIMITATIONS PROGRAM

ConnectiCare has a Quality Management Drug Program to limit certain medication quantities to established amounts. The goal of this program is to ensure compliance with U.S. Food and Drug Administration and manufacturer dosing recommendations and/or avoid abuse and misuse. For the following drugs, reimbursement will be limited to the quantities below unless ConnectiCare has received a medical necessity request from the prescribing physician and has authorized the additional quantity.

To submit request for additional quantities, please complete a pre-authorization form. Pre-authorization forms can be obtained from [www.connecticare.com](http://www.connecticare.com).

**Providers please note:** The quantities below are the limits set up for prescriptions dispensed by pharmacies to members for self administration. **Self-administered medications**, even those not on this list, may not be dispensed for self administration and billed through the medical benefit by a provider, they **must be** dispensed through a participating pharmacy.

To find a drug, click this  button and enter the name of the drug in the pop-up task pane.

### Effective January 2023

DRUG CLASS	Drug	Quantity Limit
<b>OPIOIDS</b>	<b>LONG &amp; SHORT ACTING OPIOID PRODUCTS (ALL)</b> <b>*See formulary</b> <b>Refer to policies: Long Acting Opioids, Short Acting Opioids</b>	<b>200 mg Morphine Equivalent Dose per day</b>
2ND GEN ANTIHISTAMINE AND DECONGESTANT COMBINATION	CLARINEX-D 12 HR 2.5-120 MG TB	2/DAY
